## **BOOK SYNOPSIS**

A healthy immune system is essential in any healing process. Yet, the general population and the majority of mainstream medical practitioners today often don't recognize the importance of Candida-related complex (CRC) or other species of yeast (fungi) infections. That's what Dr. Warren Levin, an alternative and integrative practitioner with more than forty-five years of experience, and Dr. Fran Gare, a clinical nutritionist and naturopathic physician, have found in their practice. Beyond the Yeast Connection is divided into three parts. The first includes a quiz where Dr. Levin describes ten possible scenarios that indicate CRC and a self-exam. In the second part, the reader is instructed to take steps to immediate-diet, with only certain foods allowed each month, starting first with a very limited diet and building up to a more inclusive one. The third part, Dr. Levin uses case histories to explain how CRC is the unsuspected cause of a variety of conditions, including autism, allergies, addictions, autoimmune diseases, bipolar disorders, chronic fatigue, infertility, Lyme disease, thyroid imbalance, and vaginitis.
