BOOK SYNOPSIS

Written by USA Today Bestselling Author, K.L. Middleton. Sinclair Jeffries thought she knew what she was getting into when her zany, gay friend, Jesse Eddington, talked her into portraying his girlfriend during his parents anniversary party on Huntington Beach. That is, until she met Reed, Jesses sexy as hell older brother, and ends up getting much more than what shed bargained for. Reed Eddington assumed his future was settled until he met Sinclair, his brothers so-called "girlfriend", but the raw, sexual tension between them is hard to ignore. As he watches their ruse from the sidelines, he finds himself wanting to uncover more than just their amusing little facade. Due to sexual content and language, this book is recommended for ages 18+
